Memorandum To all administrative personnel: There are a number of new policies and regulations in effect and each adminstratur should be apprised of them. Now that the electronic distening devices have been installed in all Institute facilities, each of you will be assigned a tape machine which will allow you to gather student opinion on the various problems facing the Unititute. The information retrieval system is located in the Brooklyn Hospital, recently acquired by the Institute to be used for future indvor gymnasium space. There are several new policies regarding student discipline. Any student caught smoking will be expelled as a fire hazard. Be careful not to mistake a student for a faculty member: the faculty members wear ties. There have been initial contacts made with a Cuban refugee group for policing the Inititute campus. against student disruptors. At no time and this is without exception, will we allow the educational processes at this Institute to be hundered unless by faculty or by you personally. Honore not signing the Prutt boyalty pledge will be questioned by the newly organized (wie Intellect Association). This is particularly worth noting as the new tuition increased by three dollars per day will soon go into effect. We expect sound springtime, a mild disturbance of which the property will be a significant to the property of the p

unce at which time we will move our administrative operations to the Montauk Club. It is a pleasure to announce at this time our new community representative. Unde Remis, whose vital

Experience in the media should do much to promote our cause in Brooklyn. The administrative stuff is to be commended for the enactment of new policies. Substituting Krativus for PI. Shop food is an excellent cost saver which will allow us to place security quards in dormitory rooms and finally protect our freshmen and sophomores. The hawn fee will certainly pay for the cost of the "We Are Hill One" seen which adorns the Main Bullding. The introduction of smothe signals by the Registran replacing the registration cards will keep the IBM conjunter free to optimize administration staff benefits. Easing the business of the Park themse found in the Park themse for the Park themse for the Park themse for the Park that the park themse for the Park themse f building to the PlayLoy (Clut should thing in additional allmini funds, which will allow us to proceed with the new building plant. By September the planting of the prison iny and the exection of the tower will have taken place and ground will be proken. Your voluntary decision to cut lunch hours from 4-to 3 hours each day is appreciated and the fact that a few of you have been working is a source of gratification to everyone.

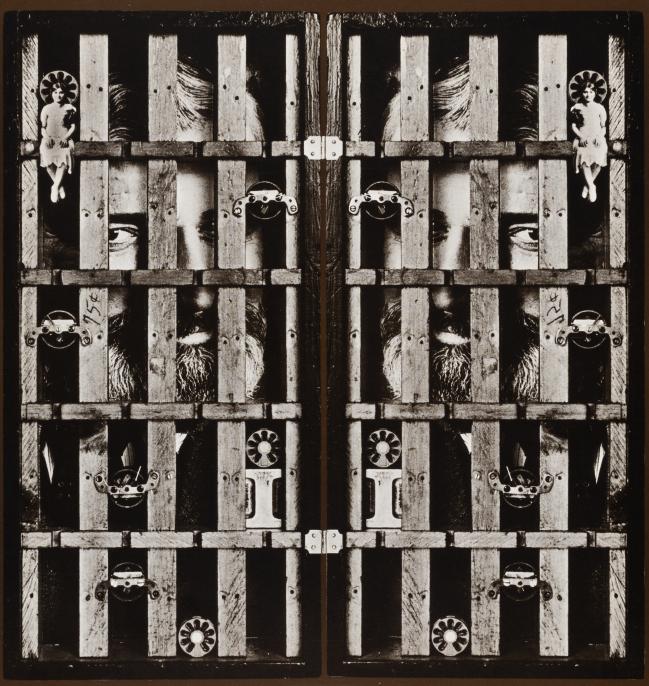

Is we approach the summer, it is with the auticipation of future excellence. Remember, a Tiffany cannot

be whieved without a South Africa. taul Duling Francis a. Mullin Robert Fannin Gerard P. Williams Koy K. Denave, J. Robert & Degendorf & -Bere F. Dian
